

Toilet and Clothing Change Policy:

For the health, safety, and the dignity of all gymnasts, Head Over Heels Gymnastics maintains the following policy regarding toileting accidents:

If a child soils themselves during the class / camp day and requires a change of clothing due to a bowel movement, the child's parent or guardian will be contacted and required to pick the child up from class / camp for the remainder of the day.

Head Over Heels Gymnastics staff are not permitted to assist with cleaning or changing a child after a toileting accident involving fecal matter. This policy is in place due to health and sanitation considerations, as well as staff training limitations.

Parents and guardians are expected to ensure that children enrolled in camp are fully toilet-trained and able to manage their own toileting needs independently for the duration of the camp day.

This policy applies to all athletes / campers unless specific accommodations have been formally arranged in advance with camp administration.
